ACT AGAINST HATE

17-25/04/2024

Szeged, Hungary

Co-funded by
the European Union

Who we are?

Ifjúsági Stratégiai Kutatóközpont Alapítvány (Youth Strategic Research Center Foundation) was founded in 2019, with the specific aim of contributing to research efforts in the field of youth strategy, and also the practical implementation of the methodological considerations viewed most effective and appropriate by our foundation. We believe that the clear path of development for education and youth work is its non-formal and informal forms, and we strive to carry out research in this field and to use them in practical circumstances such as youth exchange programs, training courses, seminars, and other teaching activities.

The foundation's curator and its volunteers have been involved both in youth work and academic endeavors for over a decade, thus acquiring not only ample experience, but also the willingness and drive to improve both the theoretical-methodological and the practical aspects of working with young people from diverse backgrounds.
